Technology

- AquaPiston canister allows water to flow into the bowl from all sides (360 degrees), increasing the power and effectiveness of the flush.
- Flush valve's 3:2 ratio harnesses the natural force of gravity and optimizes flush performance.
- Durable canister design has 90% less exposed seal material than a 3-inch flapper, for leak-free performance.
- Light-touch canister flush requires a lower actuation force than a flapper.

Installation

- Standard 12-inch rough-in.
- Three-bolt installation.
- Seat and supply line not included.

Water Conservation & Rebates

- WaterSense®-labeled toilets meet strict EPA flushing guidelines, including using at least 20 percent less water than 1.6-gallon toilets.
